

6W RGB+CCT LED Light Bulb

2.4GHz RF remote controllable
16 million colors and saturation change
CCT and Brightness adjustable

Product Parameters

- Product Name: 6W RGB+CCT LED Light Bulb
- Model No: FUT014
- Power: 6W
- Voltage: AC100~240V 50/60Hz
- Color Temp.: 2700~6500K
- Luminous Flux: 550LM
- Luminous Efficiency: 95LM/W
- CRI: >80
- PF: >0.5
- Base Type: E26 / E27 / B22
- Lifespan: 50000 Hours
- Beam Angle: 220°
- RF: 2.4GHz
- Transmitting Power: 6dBm
- Control Distance: 30m

16million colors and saturation control

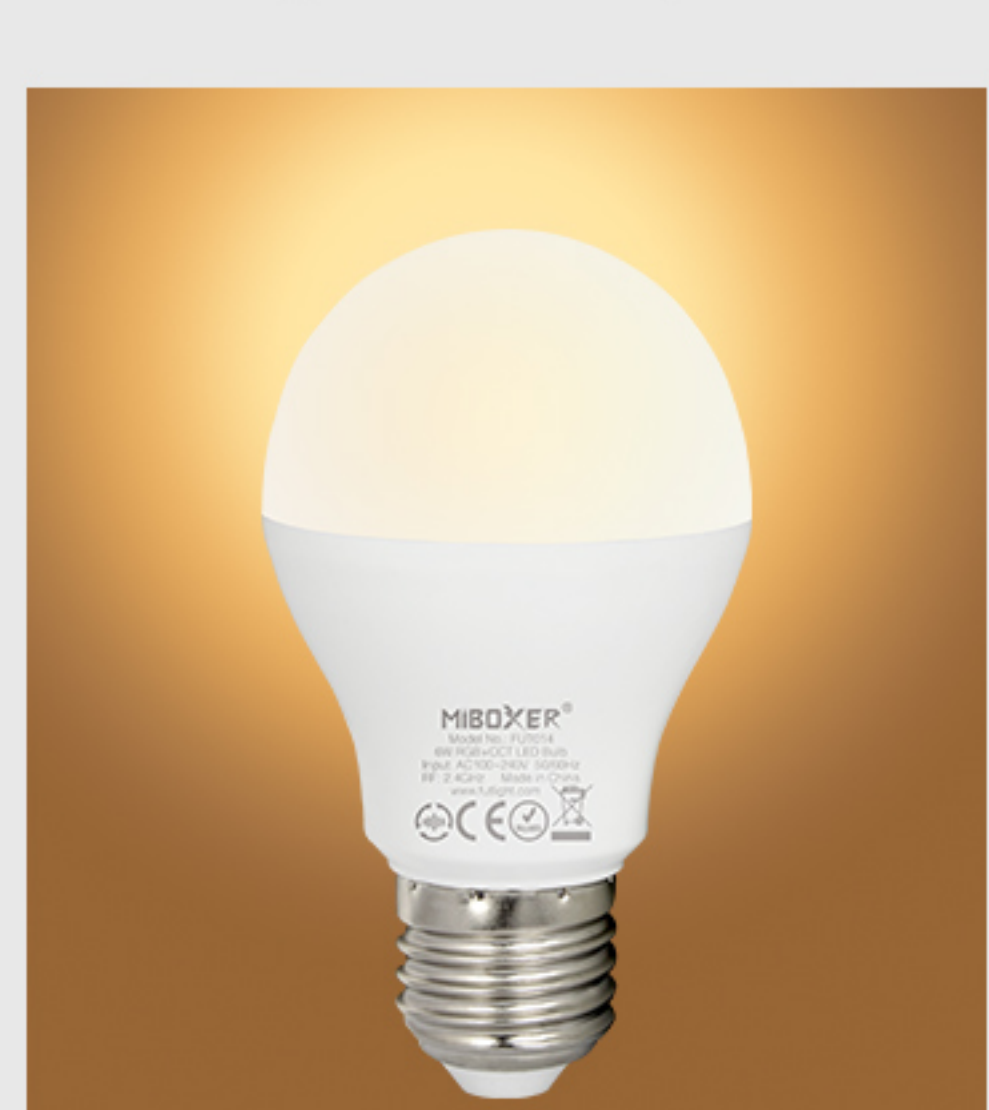

RGB+CCT LED Bulb

convenient lighting atmosphere, smart life Taste

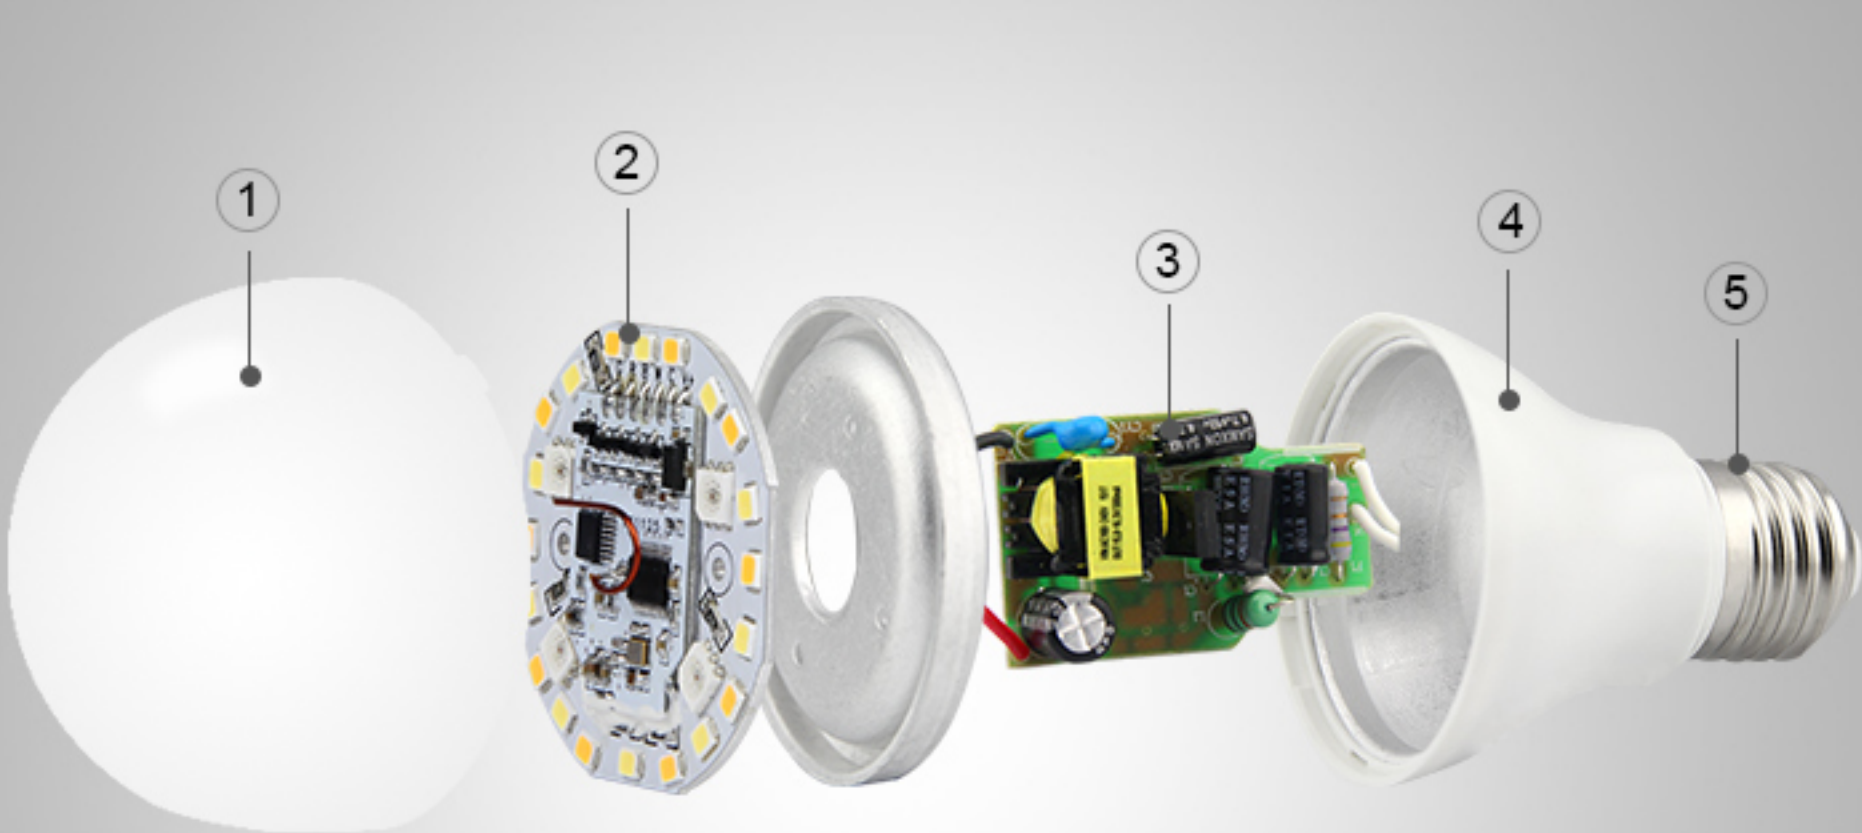

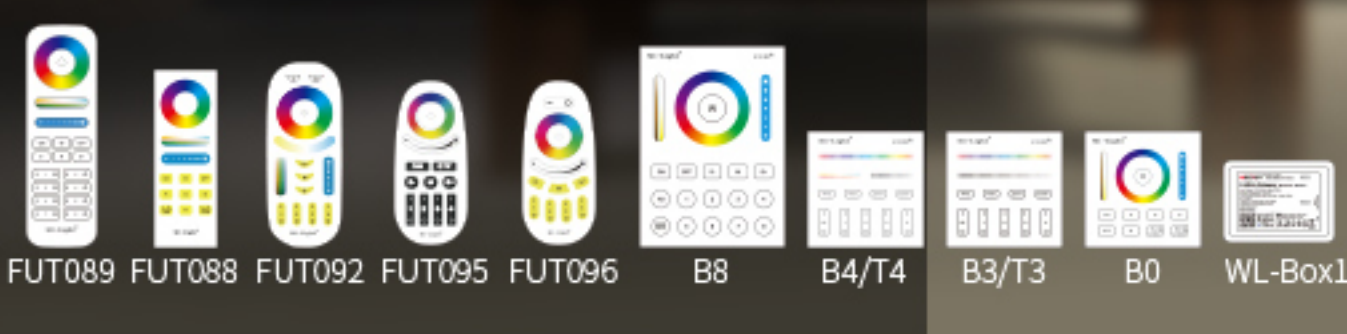

Adjust warm white to cool white randomly

Adjust the color temperature from 2700-6500K, make the light you want

2.4GHz RF Remote Controllable

Compatible with

1. High-efficient light transmittance Acrylic lens, making the light smoother and evener.
2. High quality Taiwan LED Chip, making the lamp endure extremely long lifespan.
3. Professional LED driver, high quality module, excellent performance, no flickering.
4. Aluminum body with perfect cooling performance.
5. Standard fit E27 base, widely used in many places.
